## CS70

### A discreet and stylish headset for busy executives

Every time you miss a call, you leave yourself twice as much work to do – retrieving a message, looking up a number, returning the call, and possibly finding that the moment has passed.

Plantronics' CS70 wireless headset is so comfortable and discreet that you may forget you're wearing it – until that crucial call comes through, and you're ready to respond instantly. It's just a better way to do business.

The CS70 has a maximum 100 metres' range (about 50 metres in a typical office), so you can stretch your legs, attend a meeting, touch base with a colleague, grab a coffee, and still be confident that your team or customers will get straight through to you. The sound-quality is superb, the talk- and standby-time excellent. You set the volume, and can set it to mute if you need to confer.

This is a great opportunity for busy executives and managers to maximise their productivity whilst in the office.

### Key features

- Incredibly discreet and stylish DECT™ headset
- Extremely light (22g) and comfortable
- DECT technology for excellent sound quality
- Compatible with most popular business telephones
- Volume and mute functions
- Boom swivels for use on either ear

Sound Innovation™ for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man..." From the man on the moon to the man on the street, Plantronics is an innovation leader dedicated to creating communication solutions for people who understand and appreciate the real freedom of space. From outer space to inner space, find your space.
